DEPARTMENT OF BIOLOGICAL SCIENCES

SHERMAN FAIRCHILD CENTER
FOR THE LIFE SCIENCES

December 7, 1986

Dr. Marshall W. Nirenberg
Chf., Lab Biochemical Genetics
NIH-Natl. Heart Lung Inst.
Bldg. 36-Rm. 1C06
Bethesda, Maryland 20205

Dear Dr. Nirenberg:

The Department of Biological Sciences at Columbia University has a Faculty opening in neurobiology to begin on or after September 1, 1987. I'd appreciate your recommendations for suitable candidates. The level of appointment is open.

Neurobiologists within the Department (see enclosed brochure) share interests in problems of developmental, cellular and molecular biology of the nervous system. The successful applicant should share those interests. In addition, he or she should demonstrate a high level of scientific excellence and productivity, as well as a strong commitment to graduate and undergraduate teaching.

Applicants should write directly to me at the address below before January 1, 1987 enclosing a curriculum vitae, a few significant research publications and a statement of research goals. Junior applicants should request three letters in support of their application.

Many thanks for your help.

Yours,

Darcy B. Kelley, Ph.D.
Chairperson
Neurobiology Search Committee
Department of Biological Sciences
